I am a graphic designer with 8 years of professional experience in graphic design including 2D, 3D, vector graphics, DTP, 6 years in web design (including UI/UX design, information architecture), and development (mainly WordPress based). I started as a freelancer working for individual clients and small companies. Once I learned what Adobe™ Creative Suite® and other mainstream products can do for me, I started to discover open-source alternatives like Gimp, Inkscape, Scribus, Blender and wondered what they can do for the design. I have pursued this curiosity to this day, always finding the best solution for my current and future clients.

EXPERIENCE

Own Business (since 2010)

GRAPHIC AND WEB DESIGNER. My own graphic design business. I continue to learn new things in graphic and design industry, I perfect what I know and do for years. I specialize & grow. I focus my skills on:

- graphic design (web/print)
- corporate identity design
- (responsive) web design
- information architecture
- webapp UI/UX design
- WordPress and other open-source solution in graphic industry and on the web.

UnAgency (since 2013)

WEB GRAPHIC DESIGNER. Constant business relationship in various IT and marketing projects, including:

- web design
- corporate identity / visual identity design
- marketing campaign visual assets design.

Compendium Education Center (2010-2012)

GRAPHIC DESIGNER. Long-term business relationship. My part was mainly to maintain the Corporate Identity of some of the company's products and services, but also:

- print design
- logo design
- banner design
- web design (PSD)
- promotional products design.
